Candidatul ideal

Required experience

- University degree ideally in Automatic Control and Computer Engineering, Electronics, Computer Science or similar;
- Very good knowledge in C programming language and software development;
- Ability to read/understand electrical schematics;
- Minimum 2-3 years experience in 16/32-bit microcontroller programming and debugging;
- Quality and result oriented mindset;
- Open to work in an international team;

- Good English skills in writing, reading and speaking; German language skills are an advantage;

Descrierea jobului

Essential Duties and Responsibilities

- Development of embedded software for electronic control units in the area of battery management & power electronics;
- Develop modular software design based on software requirements;
- Develop control algorithms for power electronics ECUs;
- Implement embedded software modules;
- Integration, commissioning and testing of software modules on the target hardware;
- Create SW documentation according to automotive processes;
- Configuration of AUTOSAR basic software and components.

Our offer

- Young and dynamic working environment;
- Professional development opportunities;
- Competitive salary and bonuses;
- Meal vouchers.

Descrierea companiei

Since 1919 Preh has stood for technical innovation and SME-style flexibility. Having started out as specialists for radio and subsequently TV electronics, the company has evolved over decades into a global supplier and much sought OEM Partner in the automotive sector.

So when you have 100 years of history and you're one of the top automotive suppliers, you have to be able to reinvent yourself time and again. And most importantly, be flexible, creative and committed. This enables our automotive customers to extend their lead and make the future of motoring a reality.

Our staff translate our values into boundless customer commitment. Why? Because Preh combines a very personal, family-like corporate culture with the dynamics and creativity of a modern automotive supplier.

We're proud to work for makes such as Audi, BMW, Daimler and Porsche – because you can find Preh products as soon as you get into a car. It's wonderful to be able to say to your family and friends: "That's one of our parts, a Preh part!".

Candidatul ideal

Are you looking for a coding adventure? Are you used to being a pioneer in your area of expertise? Do you enjoy creating innovative software? Then we share the same passion and our powers combined will create quality mobile software. At Cloud Business Solutions we support young talents who are coding their way to success.

If you want to join a team of professional talents who, like yourself, all eat, sleep and breathe mobile technology, then you should make an appointment for a discussion.

If you choose to join us, you will be working with our mobile development team on some exciting, cutting-edge projects. This role is responsible for the development of applications for both iOS and Android platforms, with a focus on end-user experience, innovation and maintainability.

You will work with peers and leaders to guide product evolution in a collaborative agile environment. The team you will work on, will be fast moving, always interested in the best technical solution and also open to new ideas that make the products better for our customers.

Qualifications Needed:

- 1 year of JavaScript experience;

- Some React Native or React experience is a big plus;

- Knowledge of ES6, node, npm modules, babel, redux etc.;

- Some experience in developing native mobile apps for iOS/Android is a plus.

Descrierea jobului

Responsibilities:

- Your responsibilities will be to develop, test, deploy, maintain and enhance new and existing apps;
- Brainstorm and communicate technology decisions and issues with peers and management;
- Collaborate closely with other developers, designers, managers and executives to define, design and ship new features;
- Design, build and maintain high-performance, reusable and reliable code ensuring the best possible performance, quality and responsiveness of the app.

Qualities Needed:

- Ability to quickly and eagerly learn new technologies;

- Willingness to take responsibility for projects and determine their trajectory;

- Ability to consistently meet deadlines even while running multiple projects;

- Excellent communication skills with a wide range of individuals (in English);

- A collaborative approach to team projects.

Benefits:

- Very attractive salary;

- Recognition of performance with a real opportunity for career growth;

- A large selection of video training courses;

- Private medical insurance.

Descrierea companiei

The British legacy of Cloud Business Solutions and the professional proficiency of a Romanian team of developers, bring an exceptional range of business products to the software market.

Osprey Approach, our cutting edge product, is developed by Cloud Business Solutions along side our partner, Pracctice Ltd, which is based in Malvern, England.

Since Pracctice was formed more than 30 years ago, we've successfully grown the business and developed our cutting-edge legal management software, so that we're able to deliver the latest technology to law firms and a truly integrated practice wide management solution.

Over 800 companies benefit from our services with over 8.000 users use our software products every day.

Client relationships are very important to us. We're proud to say that Pracctice Ltd has never changed ownership; many of our staff have been with the company in excess of 10 years too, meaning we're able to provide continuity of service to our clients. We're proud to say that the majority of our clients come to us following recommendations from existing clients.

99.8% of clients asked would retain Osprey after three years as their legal practice management system.

Candidatul ideal

Who are you?

Are you an ultimate team player who will support a pleasant environment within the team?

As a **Support Engineer** you are the first point of contact for the external clients who need help with IT related issues. In this role, you should have strong written and verbal communication skills, empathy to guide our customers and quick wit in order to find out ways to solve various situations.

Descrierea jobului

Want in? Let's see:

• Do you speak both **German and English** at **advanced** level? Then we're good to go!

• If you enjoy helping your friends with **IT related issues**, then most probably you will find our activity here to be exciting;

• You are not so familiar with the IT field, but you are **driven to explore** a new path? We love to help our colleagues grow!

• If you already have experience in dealing with customers over the phone or even face-to-face,

you are a step ahead!

• You know that the customers are different so you adapt your speech to their needs? We need a flexible person like you in our team!

Imagine a day at Stefanini - Take a look!

• You will talk with the clients (via email and phone) in order to help them solve their IT issues: account password reset, Internet connectivity issues, emailing options etc.;

• You will log in remotely to clients' computer in order to solve the software issues easily;

• You will document the issues that you deal with on a daily basis into the ticketing system;

• Troubleshooting hardware, software and network related issues;

• Escalating problems to the next level of support when necessary;

You will be awarded for your success with:

• **Longterm collaboration:** Contract for unlimited period of time;

• **Longer vacations:** Up to 27 days Annual Vacation;

• **Learning opportunities:** IT and Soft skills training provided by our specialists;

• **Bonus** for referring new colleagues;

• **Health benefits:** Private Medical subscription; Massage rooms in our office;

• **Flexible benefits:** Public transportation reimbursement, Meal tickets, Private pension, Certified courses, Gift vouchers;

• **Tailored Career Path;**

• Opportunity to develop a career within a stable multinational environment – Trainer, Quality Analyst, Team Leader, Project Management, Infrastructure or Application Developer Specialists etc.;

• **Friendly, fun and young team**.

Descrierea companiei

Who are we?

We are a Brazilian company with over 30 years of experience in providing IT services globally, from IT infrastructure outsourcing to developing software applications. The company is present directly in 40 countries, through its 73 offices around the world, and has a portfolio of over 500 active clients. Clients come from sectors like financial services, manufacturing, telecommunications, the chemical industry, services, technology, the public sector and benefits from a complete set of mature and professional services, which cover the entire life cycle of an application.

We've been on the Romanian market for 14 years, and since then we have gathered a team of over 1600 colleagues in our offices in Bucharest, Sibiu and Targu Mures.

Our "big enough, yet small enough" approach makes us open, flexible, responsive and agile, and these are the traits we look for in our people as well. We believe that happy employees equals happy costumers, so we put the smile at the core of our culture, our everyday challenges and our interactions with colleagues and clients. Our hobbies and passions spice up our working environment and keep us positive and productive.

Stefanini has career opportunities locally and around the world for professionals interested in a vibrant, passionate, team-oriented workplace. If you are a customer-centric person with a "get it done" attitude, come over for a coffee and a talk on your future career with us! We have the perfect terrace for it.

Grow Faster. Sell Smarter.

Echipele de Retail joacă un rol esențial în construirea celui mai bun customer experience prin intermediul celor 15 showroom-uri în care principalul nostru scop este grija față de clienți. Alături de noi nu obții doar experiență. Câștigi determinare, agilitate și o deschidere către nou care te va propulsa spre idealul tău profesional.

Știi că te potrivești dacă bifezi:

• Experiență de minimum 6 luni într-un post similar;

• Studii medii;

• Limbă engleză - nivel mediu;

• Nivel minim de cunoaștere a pachetului Office;

• Cunoștințe tehnice minime de hardware și software;

• Limbaj tehnic;

• Cunoștințe minime de operare PC: Office Word, Excel;

Descrierea jobului

Ce rol te așteaptă în echipa eMAG?

Grija pentru clienți se regăsește în fiecare interacțiune: de la plasarea unei comenzi până la consultanță specializată, livrare sau returnare produse.

Iată la ce contribuie un tehnician în showroom-ul eMAG

• Verifică și testează produsele achiziționate de clienți;

• Completează certificatul de garanție pentru fiecare produs testat;

• Identifică produsele defecte (DOA) si transmite aceste informații către colegii responsabili de soluționarea lor;

Ajută clientul prin:

• Transmiterea informațiilor legate de serviciile de garanție și post garanție oferite de către

firmă/furnizori/producători;

• Transmiterea informațiilor tehnice legate de produsele de interes;

De ce beneficii te bucuri la eMAG?

• Pachet salarial competitiv

Salariu fix și bonusuri în functie de performanță;

• Investești în tine cum vrei tu

Primești un buget flexibil pe care îl poți investi oricum dorești: în tichete de masă, turism intern, pensie privată, cursuri de limbi străine sau multe alte opțiuni.

• Ai grijă de sănătatea ta

La eMAG ai abonament medical inclus la Medicover sau Medlife și primești o serie de servicii medicale și investigații gratuite.

• Biblioteca Bookster

Îți alegi ce vrei să citești, iar cărțile îți vin la birou în fiecare săptămână.

Descrierea companiei

GROW FASTER

Suntem mereu în căutarea celor cu adevărat pasionați de ceea ce fac. Dacă ești printre ei, sigur există un loc pentru tine în eMAG. Am crescut foarte rapid și suntem determinați să o facem în continuare. Ce ne-a adus aici a fost dorința de evoluție continuă și rezultate concrete.

Peste 4.000 de persoane lucrează acum în eMAG. Credem foarte mult în dezvoltarea oamenilor și din acest motiv investim în fiecare an mai multă energie și resurse pentru a rămâne o organizație care învață în permanență. Vrem să ne asigurăm că tu vei avea cei mai talentați colegi și mediul în care să crești și să obții performanțe, să devii ce îți dorești la nivel uman și profesional.

Candidatul ideal

Hello people,

We are looking for cool and friendly colleagues who are willing to make a „better day" for the employees of our clients' companies by solving their technical issues.

You must:

- Know Swedish & English ideally to be able to have a fluent conversation
- Have basic IT knowledge (like really, really basic)

With us, we promise you will:

- Improve your language skills by speaking with natives
- Have access to a lot of online trainings. You can read those when you are not busy taking calls
- Share stories with your colleagues about funny situations you encountered
- Have that feeling of joy that you get when you help someone
- Improve your IT knowledge
- Have cool work mates who will support you and provide constructive feedback

Also, you have the chance to work in a super friendly environment, with a funny, young team. Their energy, jokes and positive spirit will make the days go by easier.

Descrierea jobului

You will have to deal with situations like these:

- Resetting passwords and unlocking accounts.
- Installing software/apps
- Troubleshooting different software issues
- If the issue cannot be resolved, simply send it to an advanced team

And do not worry. We have a database with a lot of procedures which you can follow in order to solve different situations. Also, there are back-office team members who can help and guide you when you are dealing with complicated issues.
